

Temporary Trestle Railroad Bridge for Sale or Rent

Detour Structure: This 467-foot bridge is comprised of ten spans, and is available immediately from our Rhode Island storage depot.

The structure was designed by Gannett Fleming to the current AREMA specifications and fabricated by High Steel Structures

with full PennDOT shop inspection.

The 734-ton bridge was erected in August 2005 and is now disassembled and ready for shipment.

Contact Bernie Mares for engineering calculations, CAD drawings, test reports and pricing.
